The Department of Bioengineering at the University of Utah invites applications for four (4) immediate tenure-track faculty openings at all ranks and in all areas of Biomedical Engineering. Qualified candidates should possess a PhD, MD, or MD/PhD, with post-doctoral experience viewed as strength. Successful applicants are expected to establish and maintain outstanding externally funded research, and develop/teach courses in the undergraduate and graduate programs. The Department of Bioengineering is one of the oldest and most recognized departments of its type, with 22 primary faculty averaging $700,000/FTE in research expenditures, 100 auxiliary faculty, ~150 graduate students and graduating 40-50 Bachelor of Science students annually. The department has access to wide collaboration opportunities and state-of-the-art research facilities and internationally recognized institutes across the campus, including the new Sorenson Molecular Biotechnology Building, Scientific Computing and Imaging Institute, Brain Institute, Nano Institute, Huntsman Cancer Institute, School of Medicine, and Nora Eccles Harrison CardioVascular Research and Training Institute. The department, college and university are highly supportive of student and faculty entrepreneurial activities.

Interested candidates should apply before January 31, 2013 by submitting their complete CV, names of at least three references, and statements of research and teaching plans as well as any commercialization or technology development goals at http://utah.peopleadmin.com/postings/19317. Applications will be accepted until the positions are filled. Questions may be directed to the chair of the search committee: Dr. Edward Hsu (edward.hsu@utah.edu).

The University of Utah is an Equal Opportunity/Affirmative Action employer and educator. Minorities, women, and persons with disabilities are strongly encouraged to apply. Veteran’s preference. Reasonable accommodations provided. For additional information: http://www.regulations.utah.edu/humanResources/5-106.html.

The University of Utah values candidates who have experience working in settings with students from diverse backgrounds, and possess a [strong or demonstrated] commitment to improving access to higher education for historically underrepresented students.
